THREE HOME RUNS.

We Made Enough Hits Off Jordan to Win This Game.

Special to the Scranton Tribune HAZLETON, July 13 -Scranton defeated Hazleton today in one of the most exciting contests ever witnessed at Hazleton park. The game was replete with brilliant plays, and required twelve innings to decide it.

The feature of the game was the heavy, hitting of the Scranton team. Staltz and Westlake each had five hits to their credit, one of Staltz' being a home run. Wetzel and Massey each had four hits and Patchen three, two of which were homers

While Hodson was hit rather freely and gave eight men their bases on balls, he nevertbeless struck out seven men and aided materially in winning the game for the visitors. The score HAZLETON.

Georgie W and William, 3 minute class; John and Thief, 2,35 class, and bids. Magnolia and Jim Mears, free-for-all, were conspicuous in last Saturday's races for their erratic performance. Since then, how-ver, they have been given considerable track work and prushes to such an extent that their behavior today will be more docile and satisfactory.

Lodies and carriages will be admitted to the park free, and a 25 cents admission charged gentlemen. The starter, timer and judges will be appointed at the track.

While the management has many details to perfect, it is suggested that for the benefit of the grandstand audience some arrangement be made to announce the scratches, starters, change of drivers and other details which, if properly made known, will win the favor of the spectators and enhance the success of the meetings.

John Holt, of Florey & Holt, was also in the party and will compete in the 15-mile road race.

Gregory, particulary is in fine fettle and his friends are confident that he will return at least with honors and probably with prizes; it is also exected that White and Holt will give a good account of themselves. Gilmore, of the Scranton club, in-

tended to participate but had to abandon the idea owing to a disappointment in obtaining his racing wheel.

WHIRLS OF THE WHEELMEN.

Wood rims are becoming a source of much complaint. Experience demonstrates that spoke wire that will withstand the soverest usage in a steel rim is found wanting when used as it is, in rims of wood. The difference in this tensile strength of the rims is marked. The chief difficulty with wood rims at present experienced is caused by the spokes bearing at the nipples. I have also seen wood rims smashed to splinters by a fall or collision, when metal rims would, at the most, receive but a dent.—The Wheel.
